Vocational Education and Training (VET) is a qualification system for the training sector, which has in recent years been adopted for delivery in secondary schools. We offer VET Certificates II and III to Year 11 and 12 students. Completion of a certificate is achieved by the teacher/trainer assessing a student as competent in each of the UOCs (Units of Competence) being delivered as part of the qualification.

The Schools Curriculum and Standards Authority (SCSA) awards VET credit transfer to students completing one or more VET certificates as part of their WACE course load, as follows:

Certificate level	Year 11 C Grade equivalence	Year 12 C Grade equivalence
Certificate II	2	2
Certificate III	2	4
